ACADEMIC CREDENTIAL VERIFICATION

Zakariya Jasat

August 2020

George Brown College

PROBLEMS

1. Increasing number of academic credential fraudsters

Battling fake credentials

Huge risk factor for public otherwise

2. Lengthy verification processes

More confidence during hiring process

Easily to verify candidate information and enable faster recruitment process.

3. Expensive to create credentials

Graduates own their credentials

No more transcript requests for $15 each time. Schools can also reallocate resources.
